# Why PTA?

It's the people.

**1** **Parents** who know the ways to support their child's academic success and overall well-being by being involved at home and in the school.

**2** **Teachers** who feel supported by parents with access to the resources and volunteer support to provide a high quality learning experience that meets the needs of every child.

**3** **Business and community leaders** that contribute time, skills and resources to improving the school.

**4** **Principals and school administrators** who engage families as key partners in education and school improvement goals.

**5** **Students who have an entire school and community committed to their future.**

## Join us.

**1** **Contact your state PTA** and meet some of the people who can help you start and sustain your PTA organization.

**2** **Recruit a few parents and teachers** who are interested in leading the efforts.

**3** **Identify three goals** for the year to engage families in academics, student well-being, and school improvements.

**4** **Share ways to support PTA's efforts** as a member or volunteer.

**5** **Access support from your regional, state and National PTA** on a range of issues—from organizational management to advocating for policies or resources that help to achieve your school improvement goals—PTA is here to support you.
